Moguće je i komentirati sadržaje stranica, uputiti neki savjet autoru ili na drugi način pomoći da on bude bolji. Tako je i izvjesni A.Troiani, da istaknemo jedan zanimljiv primjer, napisao kako mu se ne sviđa *site* jer on ne želi pretraživati po gotovim pitanjima, već želi pitati vlastitim riječima te savjetuje da se nađe mjesto na kojem bi mogao postaviti svoje vlastito pitanje. Ipak, unatoč tome nedostatku mnogi drugi drže kako su ovo izvrsne stranice, posebno za one koji podučavaju kemiju ili koji usvajaju znanja iz te znanosti ili koji se općenito bave educiranjem. Tako su nagrade i priznanja za njihovu kvalitetu zaista brojna. Teško je i nabrojiti sve koji su ih nagradili ili pohvalili te ih koriste i preporučuju (svaki prema svojim kategorijama i kriterijima), a među njima su nama najčuvaniji časopis *Chemistry*, American Chemical Society (ACS), *Scientific American*, *Science and Technology*, Institute for Scientific Information (ISI), *Discovery Channel School*, *New Scientist*, European Council of International Schools, *Encyclopedia Britannica*, *Argus Clearinghouse*, *Edunet Choice*, *MS Encharta Encyclopedia*, itd.

To su svakako dobre preporuke da se neki put rješenja za pojedina pitanja potraže i na tim stranicama – ili drugačije rečeno: Just ask Antoine!
