

May 19 & 20, 2025

# Interdisciplinary Approach to the Scientific Research of the Adriatic Sea

InspireAdriatic 2025

Dear colleagues and friends,

Following the successful symposium InspireAdriatic 2023 (<https://inspireadriatic2023.irb.hr/>) which gathered over 80 participants from various research fields and numerous positive feedbacks, the organizing committee and the **Ruđer Bošković Institute** are pleased to announce the **2nd international scientific symposium Interdisciplinary Approach to the Scientific Research of the Adriatic Sea - InspireAdriatic 2025** (<http://inspireadriatic2025.hr/>).

The Symposium will take place on **May 19 and 20, 2025** in **Zagreb** at the premises of the **University of Algebra**.

The **two-day symposium** will once again provide a unique platform to **inspire and connect** researchers studying the characteristics of the **complex Adriatic ecosystems** exposed to the effects of various stressors. With the aim of promoting and fostering **the interdisciplinary approach**, we warmly invite all researchers from different backgrounds to share their latest findings, **interact** and **exchange** new and emerging **ideas**.

The event will also be dedicated to the memory of Prof. Marko Branica. We encourage active participation, but participants without contributions are also welcome.

**Registration** for this event is open.

We look forward to welcoming you all in Zagreb.
